FALL
SEP - DEC

Block 1 (4 WEEKS)

- Programming for Data Science
- Computing Platforms for Data Science
- Communication and Argumentation
- Descriptive Statistics and Probability for Data Science

Block 2 (4 WEEKS)

- Data Wrangling
- Data Visualization I
- Algorithms and Data Structures
- Statistical Inference and Computation I

Block 3 (4 WEEKS)

- Regression I
- Data Visualization II
- Supervised Learning I
- Databases and Data Retrieval

WINTER
JAN - APR

Block 4 (4 WEEKS)

- Regression II
- Feature and Model Selection
- Supervised Learning II
- Data Science Workflows

Block 5 (4 WEEKS)

- Unsupervised Learning
- Statistical Inference and Computation II
- Collaborative Software Development
- Spatial and Temporal Models

Block 6 (4 WEEKS)

- Advanced Machine Learning
- Privacy, Ethics and Security
- Experimentation and Causal Inference
- Web and Cloud Computing

SPRING
MAY - JUN

CAPSTONE PROJECT

(8 WEEKS)
